Subject: TRANSFER OF RESPONSIBILITY FOR ENT-SEC-012

Recent organization changes within the Department of Administration and the Information Technology Services Division have resulted in references to the "Office of Cyber Protection" (OCP) being deleted from the statewide legacy information technology policies.

As a result, certain OCP actions stipulated within the Statewide Policy: Internet and Intranet Security (ENT-SEC-012) are now the responsibility of affected agencies. Specifically, performing "standard security checks" for web servers referenced under paragraph VI.B, third paragraph, are now the responsibility of individual agencies operating web servers.

The policy may be viewed at:
